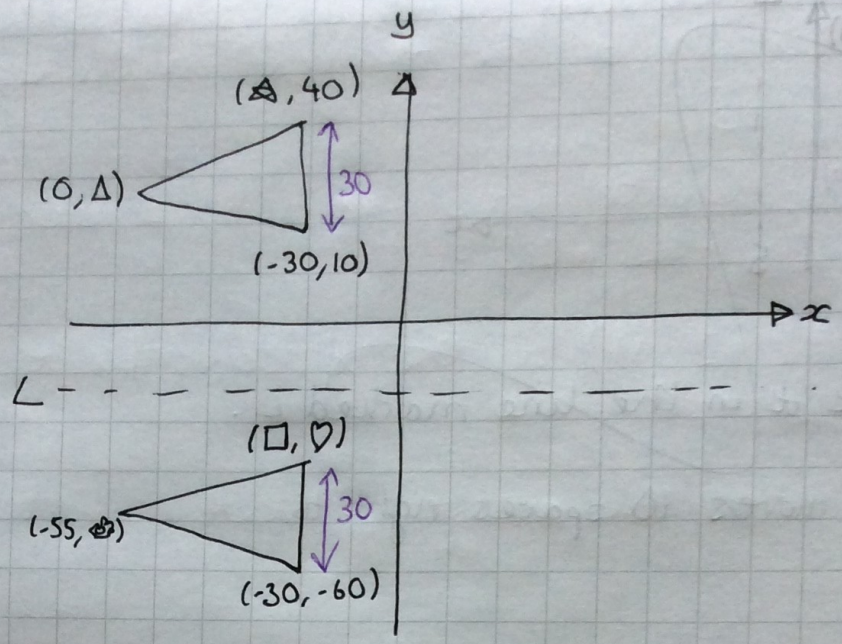
6.

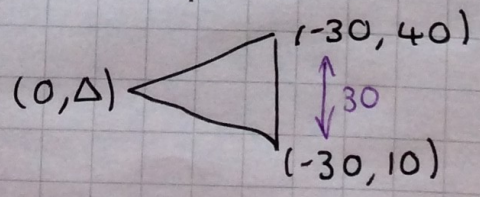


1. ♡ I know the length of this side is 30.
$-60 + 30 = -30$.
So ♡ $= -30$

2. □ and ☆. All these points are on the same line as $x = -30$, so
□ $= -30$
☆ $= -30$.

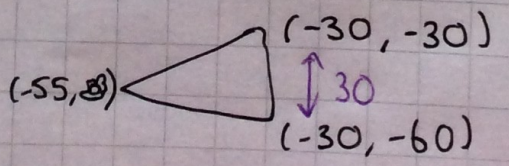
3. O is on the same x co-ordinate as -55.
O $= -55$.

4. Δ and ✿ These are half way between the ~~ba~~ opposite side.



Half of 30 is 15.

$10 + 15 = 25$ so Δ $= 25$



$-60 + 15 = -45$ so ✿ $= -45$.
