

Robot rescues Family

my Dads robot pickle surged through the water to save us!"

The Ashton family had actually phoned bella's grampa because they he had many crazy inventions.

I immediately he sent pickle, the robot horse. He can float on water and hold 10 people on his back!

The Ashton family with pickle Robot horse Family from the Isle of white were rescued yesterday by robot horse.

The Ashton family, Ben 46, Gemma 42 and little Bella 8, had treated themselves to a boat ride to Star Island

They are now safely resting at home meanwhile grampa is building more Robots. All different shapes and sizes. To buy any Robot animal you want visit his website (www.robotfriends.com)

Dad, Ben told us this, "we were having a day out on the boat and we went to Star Island. Unfortunately, the boat left without us. Suddenly,
