

Addition and subtraction

You're the teacher

Take care when you write the numbers in each question in columns.
Check that you have written each number or amount correctly before you do the calculation.

Here is a copy of Mike's newspaper. Use column addition to check each answer.
Use the space on the right to show your working. Tick the correct answers and
write the correct answers for the ones he got wrong.

Mike Jones **12 May 2014**

1. $£1.45 + £1.78 + £2.43 = £5.73$

2. $£2.99 + £4.28 + 68p = £7.97$

3. $£2.37 + £8.25 + £1.12 = £11.74$

4. $£7.70 + £7.07 + 70p = £21.77$

5. $98p + £3.69 + £6.16 + 46p = £11.26$

6. $£16.72 + £56.88 + £31.99 = £104.60$

How many questions did Mike answer correctly? _____
