

Make your own Greek mosaic

You will need:

A4 paper (either 1 sheet or 4 if you would like to make a larger mosaic)

Coloured paper/card. If you don't have any then you could use white paper and colour it in. Cut this into small squares

Glue

Scissors

Pencil

Sellotape (for sticking the A4 sheets together)

Picture/idea of a mosaic to work from.

Hints and tips

Draw a faint outline to follow.

Remember you can trim the squares to fit.

Don't cut too many squares.
