

## Greek puppets

You will need:

Cardboard tubes, either toilet roll or kitchen roll (if bigger then you will need to cut them in half)

Glue

Colouring pens/pencils

Pencil/rubber

2 sheets A4 white paper

Scissors

1. Start by folding the A4 paper in half (portrait) and cutting so that you have 4 pieces of paper. This is because I will be making 4 puppets, you can cut according to however many puppets you need to make.
2. Make sure the paper covers the cardboard tube completely with a little bit to tuck in at the top and bottom. Choose a Greek God/ character to draw onto the paper, decorate it and stick to the tube.
3. Your puppet is finished unless you would like to add any accessories, ie. a lightning bolt or a trident.

I decided to make Zeus, Hera, Artemis and Poseidon.
