

Germ Comic Strip

Today you are going to be creating your own germ comic strip.

You will need:

Comic strip template

Examples of germ cartoon characters

Handwriting pen

Drawing pencil

Colouring pens/pencils

Imagine you are a germ:

What would you do? Where would you go? How would you feel?

What would happen if you touched some disinfectant or someone washed their hands properly?

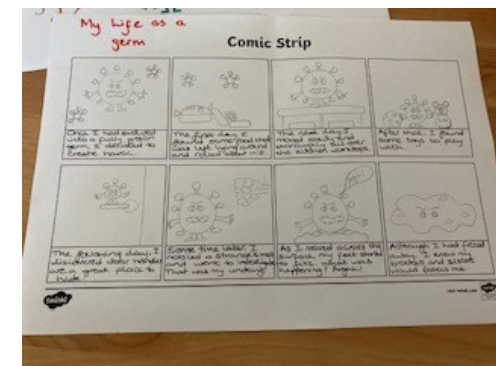

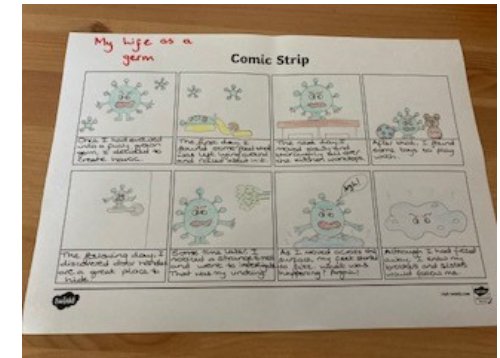

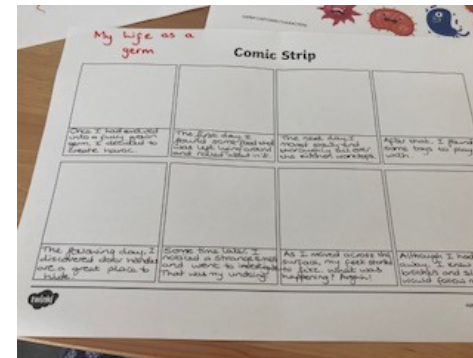

Have a look at Mrs Soley's example on the next page to inspire you before you start.

On Tuesday:

1. Decide what story your comic strip will tell.
2. Write your captions on the sheet.

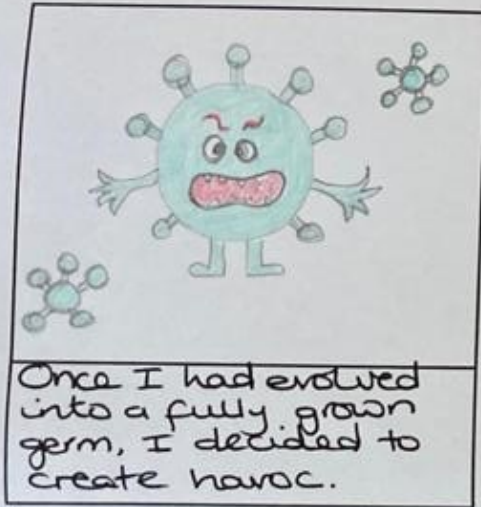

On Wednesday:

1. Draw your pictures in pencil, remember you can use the examples to inspire you.
2. Colour in.

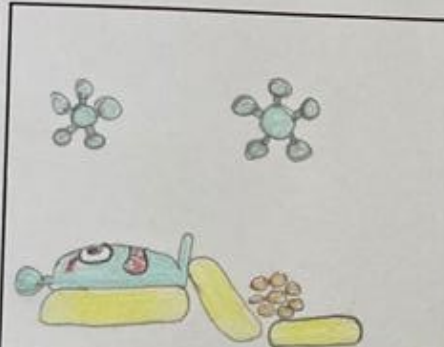

My life as a germ

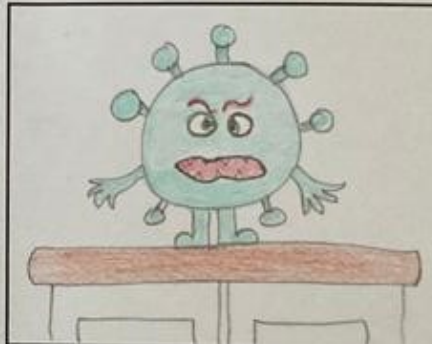

Comic Strip

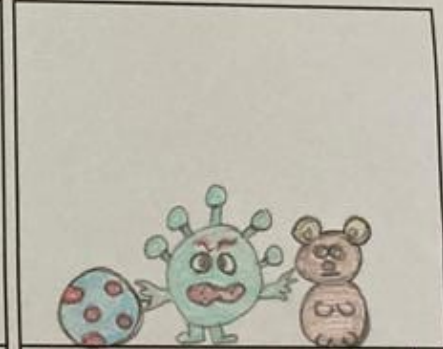

Once I had evolved into a fully grown germ, I decided to create havoc.

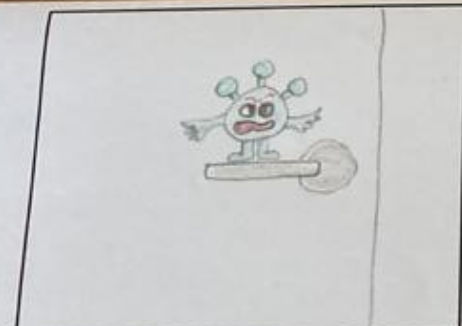

The first day, I found some food that was left lying around and rolled about in it.

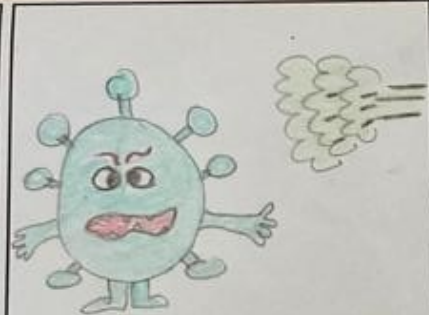

The next day, I moved slowly and thoroughly all over the kitchen worktops.

After that, I found some toys to play with.

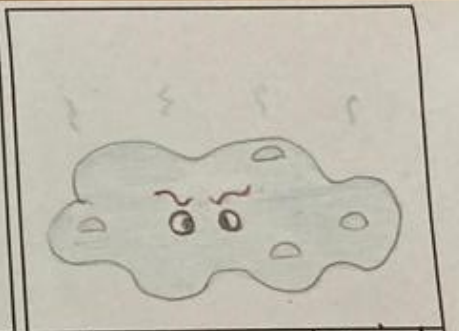

The following day, I discovered door handles are a great place to hide.

Some time later, I noticed a strange smell and went to investigate. That was my undoing.

As I moved across the surface, my feet started to fizz. What was happening? Arghh!

Although I had fizzed away, I knew my brothers and sisters would follow me.
