

Qasim says;

"The more decimal places a number has, the smaller the number is."

Do you agree?
Explain why.

Possible answer:

I do not agree with this as the number 4.39 is smaller than the number 4.465, which has more decimal numbers.

Four children are thinking of four different numbers.

3.454

4.445

4.345

3.54

Yvonne: "My number has four hundredths."

Alex: "My number has the same amount of ones, tenths and hundredths."

Louise: "My number has more tenths and hundredths than ones."

Emily: "My number has 2 decimal places."

Match each number to the correct child.

Yvonne: 4.345

Alex: 4.445

Louise: 3.454

Emily: 3.54
