

# Wednesday Pink Sheet Answers

2 Fill in the blanks.

(a) The total cost of 24 televisions is  $\boxed{£17,736}$ .

(b) The total cost of 12 refrigerators is  $\boxed{£8,256}$ .

(c) The total cost of 16 cameras and 46 computers is  $\boxed{£4,240 + 23,138 = £27,378}$ .

(d) Mr Smith wants to buy 20 televisions but he has a budget of only £12 500.

Does he have enough money? **NO**

How much more money does he need?

$$20 \times £739 = £14,780 \quad 14,780 - 12,500 = £2,280$$
