WATSON**

Chapter one:

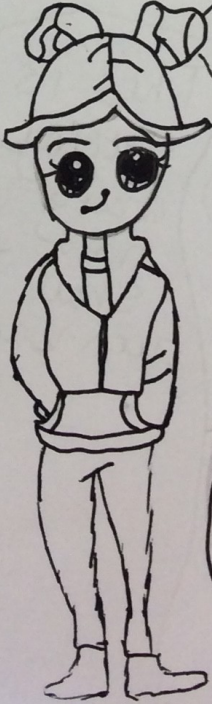

It was a normal morning. Ava woke up and went to school not knowing what the day would bring her. She had done all her morning lessons and she could see a black car sat outside on the street with two men in it. The car had tinted windows so it was hard to look in. she thought it was a bit odd as she had never seen it there before. She carried on with the day and it was still there when she had finished school.

She noticed it had followed her to her house. She ran inside and hid under her bed. It was now dinner time and ava's mum and dad called her down stairs. She looked outside and there was no one there she felt relived again. After she ate her dinner, she went back to her bedroom.

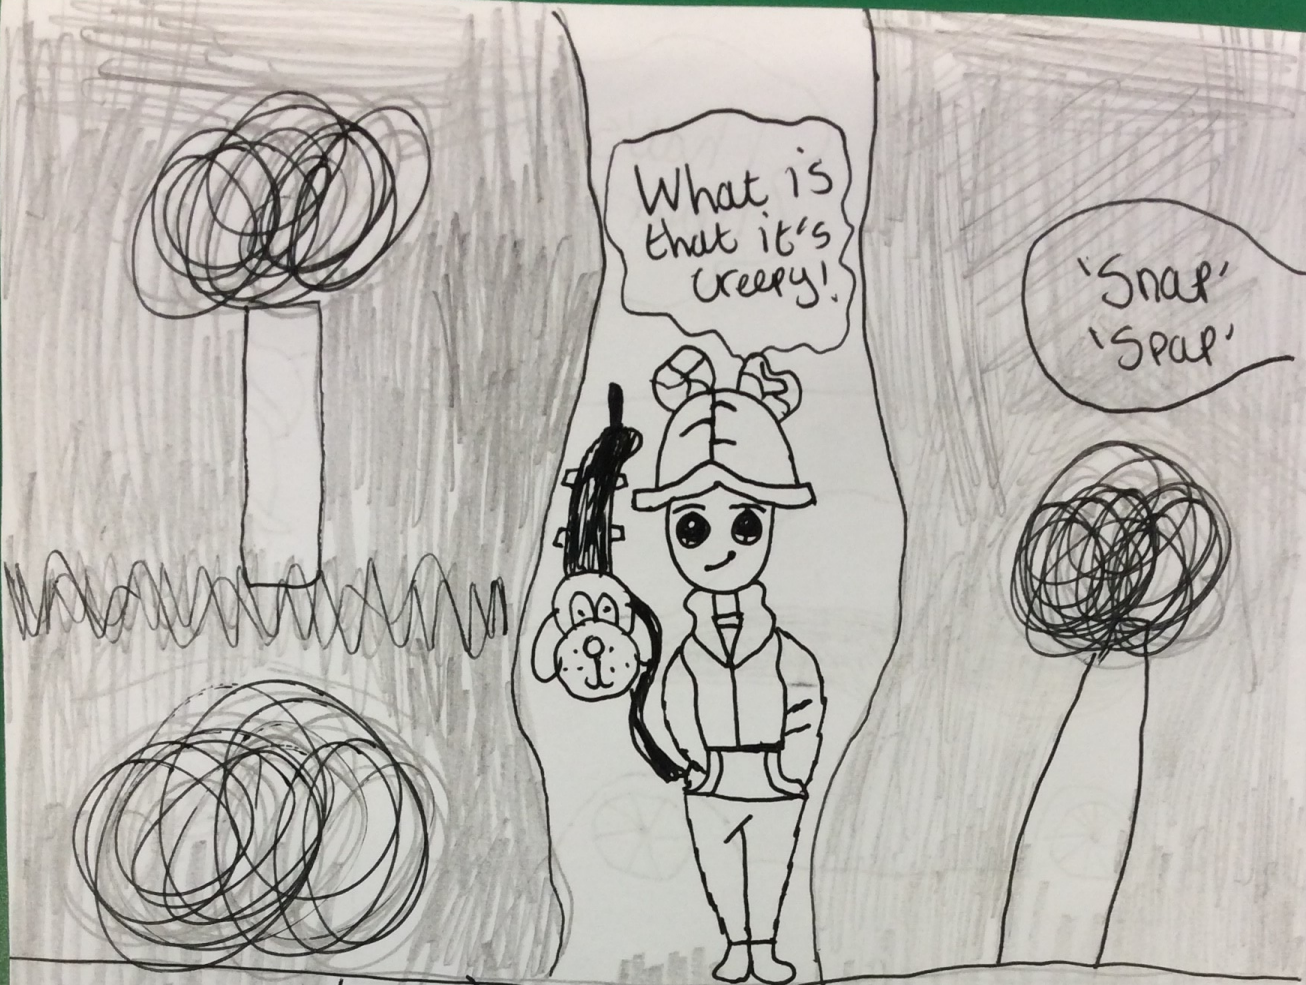

That's strange I've never seen that there before!

Phew It's not here anymore!

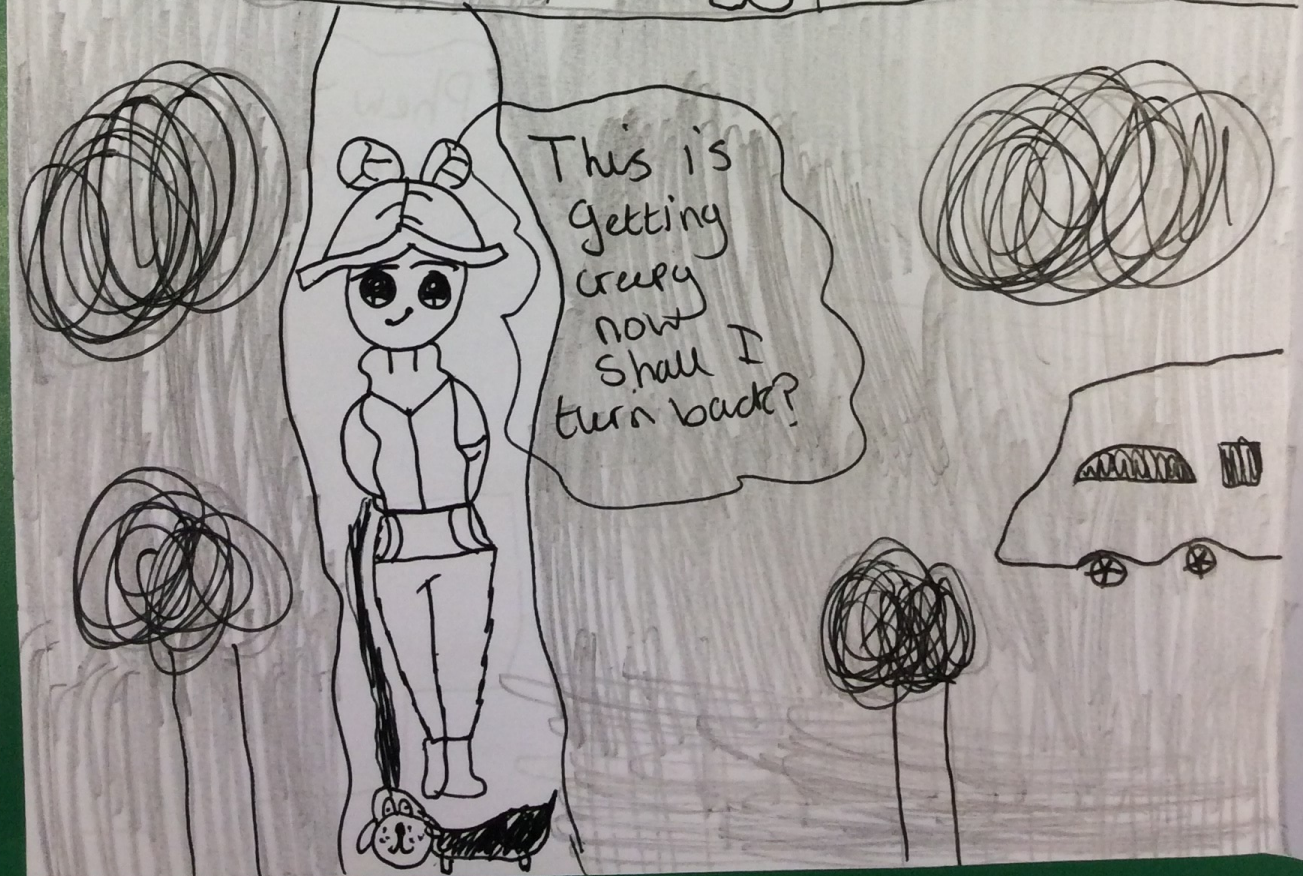

Come on dinner!

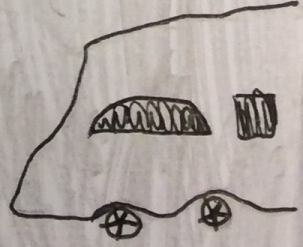

What is that it's creepy!

'Snap'
'Spap'

This is getting creepy now shall I turn back?

Chapter 2:

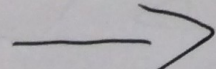

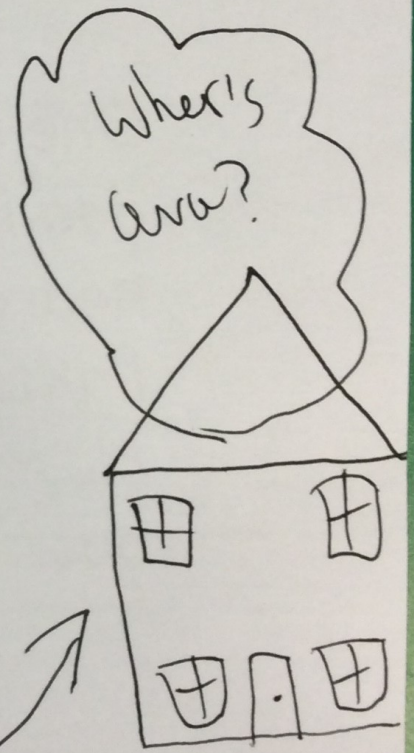

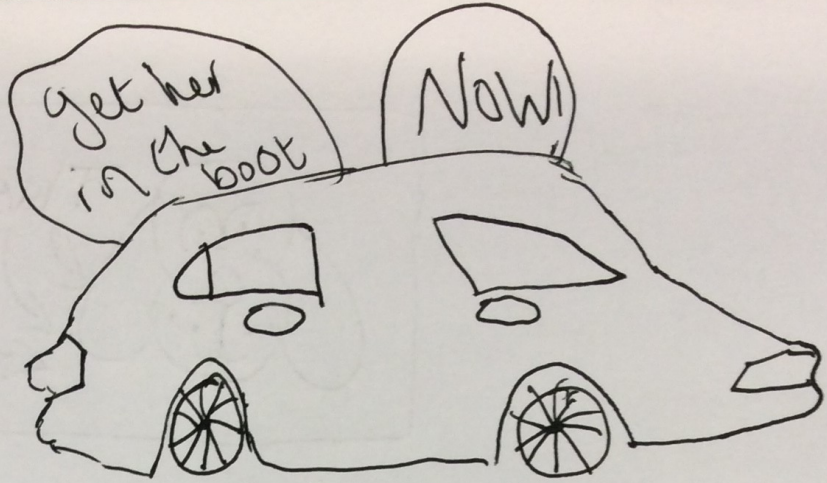

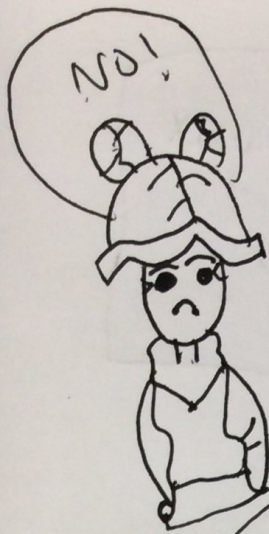

After that, her mum and dad called her down to walk the dog. She really didn't want to but she did anyway. She was planning to walk max in the forest so she set off.

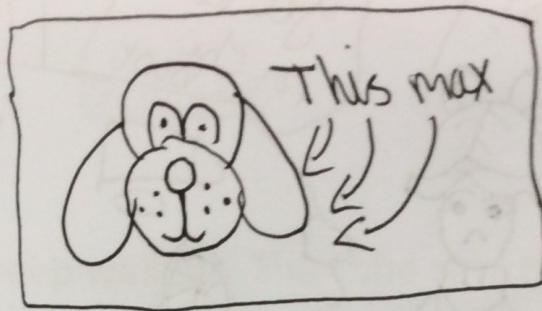

Ava was about half way into the forest when she heard a camera going 'snap snap' and a camera lens going in and out. She wasn't certain it was that so she kept on walking and she was regretting not taking her phone with her.

After about another 5 minutes of walking, she heard it again she was getting quite worried now but she kept on walking. She heard a car following her but no head lights. She was getting scared now and she didn't know what to do she was asking her self shall I turn back or continue on going and being creeped out. What will she do?

Chapter 3:

She chose to keep walking. Then she saw two head lights in the bushes which made sense now. Her head was spinning she didn't know what to do. She let go of the lead and max ran home. Her parents were confused and they thought where is ava? She was running all alone in the forest and the headlights were following her. She could just make out it was the black car on the street when she was at school she knew this meant bad news. The car was next to her in under 5 seconds and someone pulled her into the boot. She was scared and alone. But then she saw her best friend in the boot too. They chucked ava's best friend out of the boot at full speed and ava had to watch her die other wise she would get shot in the head. They drove of and ava was never seen again until the 27th of august 1946 when she ...

THE BLURB

One day ava was walking the dog in the woods until she heard cameras and headlights they got closer and closer until ... read on to find out.
