

If I know... then I know...

$$6e + 4 = f$$

When $e = 6$, $f = \square$

When $e = 8$, $f = 52$

When $e = \square$, $f = 58$

Which answer?

$$3c - 4 = d$$

When $c = 6$, what is the value of d ?

(a) $d = 32$

(b) $d = 14$ Explain how you know.

(c) $d = 5$
