

YOU WILL NEED:

Picture to work from

A4 paper - we used black

Chalks/oil pastels/colour pencils/paints

(We used chalks and oil pastels)

White paint and brush

1. First, I chose all the colours I would need.
2. I drew out the basic shapes in my main colour of brown.
3. I started to fill in some blue and highlights of white and orange.
4. I continued to build in more shading.
5. Finally, I used white paint to spatter over my picture to create stars.

TOP TIP

Have a damp paper towel next to you to wipe your finger on if you do any blending.
