

Learning in lockdown

Upham School is closed because of COVID 19. The school is still open to key workers children and other people from the school who wants to come.

Class 4 joined class 3 because there were not that many in class 4 and class 3. Class 2 has joined with class 1. At play the field and the playground are split. At break time class 3 and 4 could be on the playground and class 1 and 2 could be on the field.

Quote from Rufus class 4 pupil

"It is very different because you can only see your friends and teaches if they come to school or on zoom or team lessons.

Lessons at home are different because you could finish really early or late
