

Grace

what is it like at upham school in lokdoun

At upham school there are key worker children being taught by different teachers every day .

On Monday at the school on the 25th of January there was (snow !!!)

It is a bit different because at your home some of your brothers and sisters are at home but ... your going to school.

This is one of the students suggestions about lokdoun...

Maia

Maia doesn't like lokdoun home learning because she is alone at home with know one to help her with learning and also because it is quiet in her house she said it was like some one was watching.

And that is all of the upham news for now 😊.
