

LOCKDOWN 3.0

Home learning is a lot different for the children of Upham school. Some of the key worker children still go to school so their parents can still go to work. Unlike the first lockdown the children are benefiting from headmaster assemblies and class meetings.

At Upham School they do assembly meetings a couple times a week. Class 4 do story time and pilates every week. A Quote from a class 4 student, "it is so nice to see every one on teams, as in the first lockdown we did not see anyone on online calls, so it's nice to this time."

In class 4 they are doing the 'Mayans' this half term they are also doing some topic meetings to discuss and share their work. A Quote from a class 4 student, "its so fun to do all the geography and history of the Mayans, i love learning about it."

Everyone is missing their friends as they are not at school. A lot of the students of Upham School Face time their friends or text them. A quote from a Upham school student, "I am so sad that I can not see my friends, so we text, call each other and we play games online."

This winter has been very cold and it even snowed and it never snows in the U.K.... It is still on the ground so the students that are attending school have been playing in it. Head teacher Mr Woolley likes to keep the student connected to school life and sent them a video of him exploring school in the snow.

The cold weather isn't making it easy in this lockdown to be outside very much, but hopefully everyone is managing some fresh air each day.

They know and understand the reason for lockdown but the importance of everyone sticking together to help each other get through is very much there. Before they know it family and friends will be back together.

Stay safe everyone!
