

Lockdown at Upham school

2020 has been a difficult year for most people especially schools because they have to listen to every single rule from the Prime minister and the government.

Here is a quote from Rufus in year 5 class 4 'even though it is different at home it is still fun to do learning'

The children are doing home learning on the school website. Every day the teacher updates a bit of the website for the class to work on.

Key worker children can go to school and do work at school normally with other children in their class.

Hopefully when the corona virus has stopped schools can go back to normal and all the children can all be ok and play together.
