

# Be The Teacher! Answers

			3	0	1	r	1	6	
1	1	3	3	2	7				
		3	3						
		0	2	7					
			1	1					
			1	6					

Correct?

Correct?

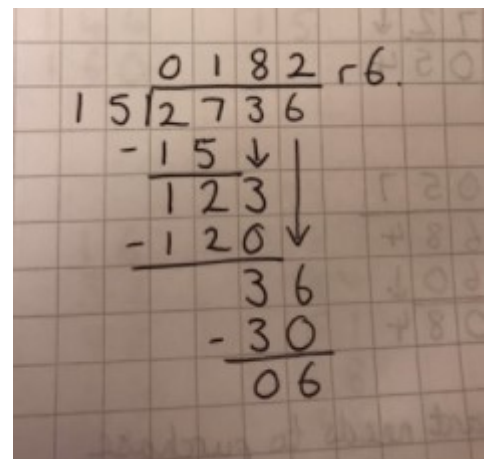

In this calculation, they incorrectly put that you could only make 1 group of 11 from 27. Instead, you can make 2 groups. So they should have done  $27 - 22$  which would have given them a remainder of 5.

			1	7	2	r	6		
1	5	2	7	3	6				
		1	5						
		1	2	3					
		1	2	0					
			3	6					
			3	0					
				6					

Correct?

Correct?

In this calculation, they incorrectly put that 120 is 7 groups of 15 when it is actually 8 groups of 15!
