

Mary Magnificent Mice!!

2.1.21

On Thursday the 10th December I noticed that my boy mouse was looking unwell.

Me and my mum were worried it looked like he was dying. I cried. We looked online to find out how best to help him and to our shock he is actually a she!!!! The lumps were actually babies. Storm-Raid was going to be a mum!

On Saturday we went to Haxling Island to go see Santa and go on some rides we had a really good day my favourite ride was the dinosaur roller coaster. I got soaked when I got home we heard squeaking from the cage then Storm came out of her cage she looked smaller!

The next day I took a look in the nest and there were 7 baby mice! They remind me of pink jelly beans. The next day we held each mouse to check for milk bands to be sure they weren't all getting sick.

Astela couple of days they started getting fat so we named them! Their names are...
Valentine - (she has a heart shape on her butt)

Hope - (she's black and white)

Jewel - (She has a Jewel shaped patch)

Star - (It's Christmas!)

DON - (My bro named this one)

Jingle - (like Jingle bells)

Tiny Tim - (he was really tiny R.I.P)

Out of the 7 babies we thought we had
4 boys and 3 girls.

Unfortunately tiny tim died.
When he was born he was clearly the smallest.
He didn't get enough food.
The other 6 mice are all well we hope
to re-home the 3 boys soon and we
have found a new home for the
dad. I love them so much. ♥
