

A fun but different Christmas!!!

On the 24th of December/Christmas Eve my Nan came round because she was on her own.

In the morning we all woke up and started to wake my Nan, up then my mum they finally got up and, we opened our stockings I got loads I got a lot of slime then, I asked if I could open the present that Santa brought me, I got a Schleich vet mobile which I asked for I was really happy Then mummy said I'll go for a coffee then my mum came up-stairs and said, you can come down now so we came and the whole carpet was full of present, so we started to open them so we could sit down as the time went on every 30 minutes, we would give Olive a present to open so she wouldn't open ours or bark.

Once Olive had finished all her presents we just left her to play. we finished our presents then we played I called my friend's and played with then it was finally time to settle down and that was that day complete.
