

Ough Check and Correct Answers

Have a look at the diary entry below. There are quite a few words which have been spelt incorrectly and are missing the 'ough' quadgraph. Can you spot them and correct them?

Dear Diary,

Today, I made some dough to make a honey cake. Although I was worried it might make a mess in the kitchen, I thought it would be a good idea. I flew through the roof (though I should have used the front door) and I went to the shop. I bought all the ingredients and then brought them home. I mixed all the ingredients but the mixture became so thick that I fought to stir it with my spoon. Then I had a breakthrough idea! I added more honey then it was much easier to stir!
