

Movie Day

21/02/2021

I woke up to the sound of Elsie storming downstairs like an angry elephant. It was a Sunday, which meant I was watching a movie because on days which begin with s I watch a marvel movie. I headed downstairs and looked out the window, it looked like a lovely sunny day. An hour or so later I was ready to start the day, I had recently found out how to tell my mum things by using the drop in on Alexa. I had a lot of fun exploring Alexa especially when I found out I could see through the security cameras, turn off lights and watch Netflix and YouTube.

It was 12pm, movie time, the best time of all! I put on Doctor Strange and ate my lunch the movie was **EPIC** although it was a bit confusing but still insanely cool. There was probably the coolest villain of all the other 14 Marvel movies before it.

Just after the movie ended, I decided to go outside with Elsie on the brilliant, bouncy and dangerous trampoline. We invented a really funny and dangerous game called the Spinny Winny, you had to spin around on the trampoline and try not to fall over or bump into each other. Eventually I got tired, I went to play with my basketball for a bit. I am getting much better at it I want to improve my throwing.

It was time to have a closer look at the seeds we bought the previous day, we were trying to see when we should plant them and we came up with near the end of March.

It was time to facetime my friend Zachary, we played Minecraft for a while then his iPad which he was playing on died and the phone that was facetimeing died. It was hilarious and extremely annoying. His mum, Sally, texted my mum to say he will charge the phone and IPAD for 20 minutes then we can play again, but it took 30 minutes. When he was back, we played World Box which just got a brilliant update as always but my game kept crashing.

I had my delicious roast dinner. I got 3 Yorkshire puddings! I still want one of those massive yummy ones (I assume they're yummy) that my dad told me are used as plates although, I would just put my dinner in it and pour in gravy so everything is coated in glorious, precious gravy and then rip it to shreds.

Finally, I got in the bath and splashed about. I got out and went to bed.
