

## Walk to the Sea Side.

On the 25<sup>th</sup> of July 2020 Me, mummy, Daddy and Lily and some friends went on a walk to the Jurassic Coast ~~for a walk~~. We took our swimming clothes so we could go ~~on a~~ for a swim in the sea. It was a very hot day so we thought it was really refreshing. When we got out I saw a shiny thing in the rocks. It was an ammonite so I rushed to it and picked it up and ~~put it in my bag~~ ~~to show my friends~~

Once I had picked it up, I went to show my friend my magnificent find. They all thought it was really cool that I had found it. This made me feel really chuffed with my self.

This has made me determined to find more fossils. So tomorrow I'm going to pack my bag ready to set off on ~~another~~ another adventure.

## Things I need...

A magnifying glass  
A spade  
A hammer  
A brush  
anda bag  
anda ~~chisel~~ chisel

I'm so excited to see what I am going to find tomorrow tomorrow.
