

THE MAGNIFICENT MAYANS

This winter half term, the topic of 'The Mayans' has been so interesting for the children of class 4. Everyone in class has loved doing the Mayans and learning about their Gods, how they lived and much much more. The most popular section has been making a Mayan Temple.

They have made a Mayan temple out of cardboard. A quote from a class student,

Here is piece of work that class 4 were set to do.

"I love doing DT so this temple was so fun to make. Lots of measuring and cutting to do!"

Class 4 have done some Mayan maths this half term it has been a little tricky for the students but they have persevered with all the maths. Here is a quote from a class 4 student,

"The Mayan maths has been tricky for me as its been hard to know what all big numbers are, and trying to work out calculations ."

Class 4 have made Mayan drums out of a mixture of items. They put the beads on the ends of the ribbon to help create the drum sound, they could then decorate it with Maya patter designs. Here is a Quote from a student of class 4,

"It was so fun making the drums and making lots of noise!"

They also have done some lovely cooking. They have made Guacamole, spicy couscous, milk pudding and spicy burritos. A quote from a class 4 student,

"the cooking was so nice to eat."

Milk
pudding

The Mayans have been so interesting for the students. It has been very different for some of the students, as most of them have had to do home learning because of COVID19. They usually love working as pairs to do research and share work, so doing a couple topic zoom calls has helped with this, but just not the same. Here is a quote from a student,

“It has been a lot harder doing home learning but we have to do it to keep safe.”

Class 4 have loved their topic this term.
